How Do I Advertise?

1. Generate a unique partner link

This allows you to easily track actions of users who follow the link in your ad, register with 1xBet, make a deposit, and place a bet.

To create a partner link, log in to your personal account and press “Get partner’s link” in the Express Menu.

Fill the «Landing page» field if you do not want to drive traffic to the main page, but to a particular section of the website (bonuses, promotions, a sports match).

Use the «SubID» field if you generate links to different ads (banners) on the same website (to differentiate them).
